

Local Listings is a comprehensive service that accurately lists your business information – including company name, overview, logo, important links, and photos – across 70+ local online databases. This ensures that customers and prospects can seamlessly find and contact your business whenever they need.

Features

- **Listings management:** Your business information is listed across 70 local online directories, making it easier for customers and prospects to find you.
- **Understanding what customers are looking for:** Use various data points to understand what customers want, attracting those most likely to engage with your business by optimizing information such as company logo and overview, business and holiday hours, link to your website, reviews, photos, etc.
- **Customer feedback handling:** Gather and display customer feedback to enhance customer service and engagement, allowing you to monitor, analyze and respond promptly.
- **Engagement analytics:** Track and analyze metrics like map views, Facebook likes and search queries to understand customer behavior and improve your business insights.
